Lifeful place for lifeful people

Dal lavoro ibrido alla realtà in continua evoluzione: anche DVO si rinnova, rivelando una doppia anima. Un progetto nel progetto. Dal design dei servizi alla gestione completa di una commessa o di un intero progetto speciale.

Siamo una service company che risponde ad ogni idea creativa con prodotti sostenibili, un servizio just in time e una logistica affidabile, ma siamo anche partner di progetto, innovativo e versatile per professionisti e mondo corporate, fornendo un supporto completo in ogni fase del processo. Mettiamo al centro il benessere delle persone, perché questa è la vera evoluzione dello spazio lavoro.

La nostra impronta green, per il pianeta e per le future generazioni, passa anche attraverso l'utilizzo di materie prime rinnovabili, investimento continuo in certificazioni aziendali e di prodotto, controllo della qualità delle materie prime e dell'aria. Oggi siamo una duplice identità pronta a riscrivere le regole con un nuovo modello di business.

From hybrid work to constantly evolving reality: DVO renews itself, revealing a dual soul. A project within a project. From service design to the complete management of the global order or special project.

We are a service company that responds to every creative idea with sustainable products, a just-in-time service and reliable logistics, but we are also an innovative and versatile project partner for professionals and companies, providing comprehensive support at every stage of the process. We put people's well-being at the centre, because this is the true evolution of the workspace.

Our green thinking, for the planet and for future generations, goes also through the use of renewable raw materials, continuous investment in company and product certifications, quality control of raw materials and air. Today we are a twofold identity ready to rewrite the rules with a new model of business.

Fluid design

Equilibrio | Essenza umana | Inclusività | Natura | Fluidità |
Movimento | Design flessibile | Diversità | Benessere assoluto |
Smart living | Talento interiore | Evoluzione

Lavoro agile, libertà di integrare vita e lavoro, equilibrio e talento interiore. Il nuovo ufficio abbraccia l'essenza umana, diventando uno spazio privo di confini, disegnato per il benessere assoluto. Il design flessibile spinge verso ambienti rilassanti, stimolando la creatività e riducendo lo stress.

L'innovazione digitale amplifica questo viaggio, consentendo la scelta del luogo e dell'orario di lavoro. La diversità diventa inclusività, una contaminazione culturale e un nomadismo positivo che arricchiscono le possibilità, disegnando strade verso nuove prospettive, luoghi e volti.

L'evoluzione dell'ufficio crea spazi ibridi in continuo movimento, plasmati per soddisfare le esigenze mutevoli e per incentivare il dialogo con gli altri. L'armonia e la rigenerazione emergono dal bilanciamento di un'esistenza consapevole: uno stile di vita intelligente che grazie alla tecnologia crea un equilibrio responsabile, una connessione e una fluidità positiva tra lavoro e natura.

Balance | Human essence | Inclusivity | Nature | Fluidity |
Movement | Flexible design | Diversity | Absolute well-being |
Smart living | Inner talent | Evolution

Agile working, freedom to integrate life and work, balance and inner talent. The new workplace embraces the human essence, becoming a boundless space designed for absolute well-being. The flexible design pushes towards relaxing environments, stimulating creativity and reducing stress.

Digital innovation amplifies this journey, allowing the choice of place and working time. Diversity becomes inclusivity, cultural contamination and positive nomadism enriching possibilities, drawing roads to new perspectives, places and faces.

The evolution of the office creates hybrid spaces in constant movement, shaped to meet changing needs and to encourage dialogue. Harmony and regeneration emerge from the balance of conscious living: a smart living to create a responsible balance, connections and positive fluidity between work and nature.

Rocks Executives

Archetipo di solidità e resistenza, la roccia è l'elemento naturale perfetto per accompagnare il racconto del catalogo Executives. La sua presenza, statuaria e monolitica per definizione, innesca un dialogo con lo spazio circostante connotandone prestigio ed esclusività.

An archetype of solidity and resistance, the rock is the perfect natural element to accompany the narrative of the executives catalogue. Its presence, sculptural and monolithic by definition, triggers a dialogue with the surrounding space, characterising prestige and exclusivity.

VIGO

DV913

DV913-Vigo è un sistema d'arredo direzionale concepito per conferire personalità allo spazio ufficio, un habitat professionale all'insegna della tecnologia e del comfort, flessibile e aperto agli spazi condivisi. Nella concezione di ufficio direzionale, la scrivania DV913-Vigo è un'opera d'architettura in scala ridotta, minuzioso elemento di design in cui gli importanti spessori e finiture materiche caratterizzano i piani di lavoro. Le strutture delle scrivanie mettono in evidenza la particolare composizione tra la gamba portante e il telaio in alluminio. Il contrasto scultoreo di pesi e di volumi identifica a pieno lo spirito che anima la collezione DV913-Vigo.

DV913-Vigo is an executive furniture system designed to give distinctive personality to the office space, a professional environment under the banner of technology and comfort, flexible and ideal for open spaces. In the executive office concept, the DV913-Vigo desk is a small-scale work of architecture, a minimalist design element where the significant thicknesses and material finishes characterize the worktops. The desk structures highlight the special design between the leg and the aluminum frame. The contrast between weights and volumes fully identifies the spirit that drives the DV913-Vigo collection.

Scrivania con penisola sx L 285 P 130 cm
Piano scrivania: melaminico rovere scuro sp. 50 mm
Gambe pannellate: melaminico nero opaco soft touch L 10 cm

NOTO

DV911

L'idea di ambiente direzionale esce dai confini convenzionali dell'ufficio: non è più solo uno spazio lavorativo ma diventa un elegante palcoscenico in cui descrivere strategie di successo. La collezione DV911-Noto riprende l'idea del classico tavolo da lavoro su cavalletto. Tutto è realizzato con materiali naturali, vetro e legno, rivisitati per adattarsi sia allo spazio ufficio che in un elegante ambiente domestico. La struttura è in legno massello, noce canaletto o frassino verniciato antracite, mentre il piano è in vetro per uno stile leggero e minimale. La scrivania DV911-Noto è disponibile sia nella versione con piano rettangolare che semi-circolare. Un tavolo versatile dunque, le cui linee curve e spessori riprendono il meglio dell'artigianalità e ne preservano la contemporaneità.

The idea of the executive environment moves beyond the conventional boundaries of the office: it is no longer just a workspace but becomes an elegant stage on which to describe successful strategies. The DV911-Noto collection takes up the idea of the classic trestle work table. Everything is made of natural materials, glass and wood, revisited to fit both the office space and an elegant home environment. The frame is made of solid wood, "canaletto" walnut or anthracite painted ash, while the top is made of glass for a light and minimal style. The DV911-Noto desk top is available both with rectangular and with semi-circular shape. A versatile table whose curved lines and thicknesses take the best of craftsmanship and preserve its contemporary feel.

Scrivania L 200 P 100 cm
Piano scrivania: vetro temprato sp. 12 mm,
con bordi perimetrali lavorati a filo lucido. Finitura fumé

RYM

DV905

Il tavolo DV905-Rym rappresenta la perfetta combinazione tra design minimalista e innovazione tecnologica, unendo eleganza e funzionalità. Le ampie superfici, lo stile essenziale e la cura dei dettagli esprimono l'anima di questa collezione.

La struttura in estruso di alluminio, apparentemente sottile ma resistente, si adatta a diversi ambienti e stili di arredamento garantendo una stabilità impeccabile.

La tecnologia "nascosta" all'interno del piano consente di ottenere tavoli di grandi dimensioni senza l'impiego di elementi strutturali intermedi garantendo pulizia formale e leggerezza.

Il piano di spessore 50 mm, è composto da un telaio perimetrale esterno e rinforzato da un telaio perimetrale interno. Il tavolo DV905-Rym è disponibile in diverse misure e colori per soddisfare le diverse esigenze progettuali.

The DV905-Rym table represents the union of minimalist design and technological innovation, combining elegance and functionality.

The large surfaces, essential style and attention to detail express the soul of this collection.

The minimal but strong aluminum structure adapts to different environments and furnishing styles, ensuring impeccable stability.

The "hidden" technology inside the top makes it possible to produce large dimensions tables without the use of intermediate structural elements ensuring a light look.

The 50 mm thick top is composed of an outer perimeter frame reinforced by an inner perimeter frame. The DV905-Rym table is available in different sizes and colours to meet the different design requirements.

VERTIGO

DV901

Le scrivanie DV901-Vertigo superano l'idea di scrivania tradizionale e rispondono ad un nuovo approccio di ambiente rappresentativo e funzionale. DV901-Vertigo è un tavolo caratterizzato da una solida struttura in pressofusione di alluminio a sezione trapezoidale e dall'originale design del giunto in pressofusione di zama che unisce, con equilibrio, il linguaggio tecnico-industriale a quello decorativo, dando vita ad un prodotto modulare e funzionale. Le gambe sono disponibili in due diverse tipologie: con base o senza base. Una collezione che possiede un forte grado di comfort e qualità estetica, spaziando dall'ambiente direzionale sino all'area operativa.

DV901-Vertigo desks go beyond the idea of the traditional desk and respond to a new approach of a representative and functional environment. DV901-Vertigo is a table characterized by a die-cast aluminium frame with a trapezoidal cross-section and by the original design of the zamak die-cast joint that combines a technical-industrial and decorative language, creating a modular, functional product. There are two different types of legs: with base or without base. This collection has a great degree of comfort and aesthetic quality, suitable for the executive environment as well as the operative areas.

PLANETA

DV902

La collezione DV902-Planeta riflette l'evoluzione della scrivania manageriale. Una linea direzionale elegante e minimale che si distingue attraverso il mobile di servizio che funge da struttura portante al tavolo oltre che elemento di archiviazione.

Il piano di lavoro è compatto e solido con la struttura. Sotto il piano di lavoro è presente un telaio perimetrale realizzato con estrusi di alluminio a sezione trapezoidale. La gamba ad anello, quale segno distintivo dell'intera collezione, è costituita da una cornice rettangolare di acciaio e nella parte superiore esterna della gamba è applicato un carter in lamiera piegata che conferisce originalità estetica. La varietà delle finiture rendono DV902-Planeta una scelta versatile e perfetta per chi cerca una scrivania manageriale progettata per durare nel tempo.

The DV902-Planeta collection reflects the evolution of the managerial desk. An elegant and minimal executive line that is distinguished through the service cabinet that serves as a supporting structure to the desk as well as a storage element.

The table top is solid with the structure. Under the worktop there is a perimeter frame made from trapezoidal-section made from extruded aluminium. The ring leg, as the feature of the entire collection, consists of a rectangular steel frame and a folded metal carter applied to the upper outer part of the leg, giving it aesthetic originality. The variety of finishes makes DV902-Planeta a versatile and the perfect choice for those seeking a managerial desk designed to last.

DAKAR

DV914

DV914-Dakar è una moderna scrivania direzionale, dal design aereo, che mira a trasformare lo spazio di lavoro in luogo inclusivo e di interazione. Le scrivanie e i tavoli riunione, abbinati a contenitori di servizio e penisole, consentono di creare spazi manageriali non convenzionali, giocando tra funzioni e cromie. Le forme morbide e affusolate delle gambe coniche identificano i tavoli dell'intera collezione, mentre il dinamismo compositivo e la versatilità cromatica caratterizzano i diversi elementi che possono essere liberamente combinati tra loro.

DV914-Dakar is a modern and light executive desk that aims to transform the workspace into an inclusive place of interaction. The desks and meeting tables, combined with service storage units and peninsula tops, make it possible to create unconventional managerial spaces. The conical shapes of the legs identify the tables of the collection, while the wide range of compositions and colors characterize the various elements which can be freely combined.

OXFORD

DV910

DV910-Oxford è una collezione executive che nasce da un'approfondita ricerca sull'evoluzione del lavoro contemporaneo. Un elemento d'arredo che genera un'alternanza di pieni e vuoti, rivelando preziosi dettagli funzionali e sofisticati equilibri proporzionali. DV910-Oxford propone scrivanie ad altezza fissa e regolabili in altezza. Il piano principale è formato da elementi rettangolari che giocano con la matericità delle finiture e, per una pulizia formale, possono essere scorrevoli e nascondere il cablaggio. La scrivania può essere corredata di un piano penisola circolare studiato come "guest area". Completano la collezione i contenitori di servizio, i tavoli riunione e l'armadio multifunzione che si presta sia in ambiente ufficio che domestico. Tutti gli elementi sono caratterizzati dallo stesso segno estetico: elementari geometrie basate su linee e forme essenziali che si intersecano tra loro e creano un insieme di grande eleganza.

V910-Oxford is an executive collection born out from in-depth research into the evolution of contemporary work. A piece of furniture that generates an interplay of solids and voids, revealing precious functional details and sophisticated proportional balances. DV910-Oxford offers fixed-height and height-adjustable desks. The main top is formed by rectangular elements that play with the texture of the finishes and, can become sliding tops to hide the cables. The desk can be equipped with a round peninsula top designed for the "guests area". The collection is completed by service storage units, meeting tables and a multifunctional cabinet that is suitable for both office and home environments. All the elements are characterized by the same aesthetic sign: elementary geometries based on essential lines and shapes that intersect with each other and create a set of great elegance.

Scrivania con mobile di servizio L 230 P 210 cm
Piano scrivania operatore e modesty panel:
melaminico nocciola effetto "pelle"
Piano scrivania visitatore: melaminico bianco
Gambe pannellate: melaminico bianco

La natura è il motore che sostiene il mondo in cui viviamo. Lavorare in un'ottica green è un impegno e un dovere per avere i piedi radicati a terra nel presente, ma lo sguardo sempre rivolto al futuro.

Per il benessere del domani è indispensabile fare oggi delle scelte sostenibili. Selezioniamo con grande attenzione la qualità dei materiali dei nostri prodotti e soddisfiamo gli standard più rigorosi: prodotti durevoli e sostenibili. Una costante ricerca per un miglioramento continuo nei processi produttivi di ogni nostra attività: essere green è la nostra natura, non solo parole.

Ecco i fatti: le nostre certificazioni aziendali e di prodotto, sono in costante aggiornamento, poiché essere green vuol dire soprattutto sapersi sempre rinnovare per crescere.

Nature is the engine that sustains the world we live in. Working in a green perspective is a commitment and a duty to have one's feet firmly rooted in the present, but one's gaze always turned towards the future.

For the well-being of tomorrow, it is essential to make sustainable choices today. We carefully select the quality of the materials in our products and meet the strictest standards: durable and sustainable products. Constant research for continuous improvement in the production processes of all our activities: being green is our nature, not just words.

Here are the facts: our company and product certifications are constantly being updated, because being green means above all always knowing how to renew in order to grow.
