The diagram illustrates a cable management system. A main horizontal cable tray is shown with a removable panel on its side. The panel is being moved away from the tray, revealing the internal structure and the tray's profile. The tray has a U-shaped cross-section with a flat top surface and vertical side walls. The removable panel is designed to fit snugly against the side wall of the tray. The drawing uses perspective to show the relationship between the tray and the panel.

Pannello passacavi rimovibile
Removable cable-way panel
Panneau passe-câbles amovible
